- ✔ Kikuyu - Native

REFERENCE

- **Available Upon Request**

EXPERIENCE

Align Turn(Remote) — **April 2026 - August 2026**
Audio Transcription
1. Accurately converted spoken Swahili audio to written text, adhering to strict quality and formatting guidelines.
2. Collaborated with a team to meet project deadlines and contribute to building high-quality language datasets for AI and speech recognition systems.
3. Reviewed and corrected transcripts, handled diverse accents and dialects and maintained high accuracy and consistency.

EDUCATION

Dedan Kimathi University of Technology — **July 2024 - Present(Expected Graduation : 2028)**
Bachelor of Science in Computer Science
First Class

PROJECTS

Event Simplified Application
Created a full stack event management web app to help users organise and track schedules.
Implemented secure user authentification logic, real time countdown timers and interactive tast expansion accordions.

Drink Depot E-Commerce Platform
Developed a comprehensive, multipage PHP E-Commerce web app with a responsive customer storefront.
Engineered a secure admin backend for seamless inventory tracking, product updates and user management.

Payroll Management System
Designed and built a modular desktop application for payroll processing using Java 21 and JavaFX.
Architected the MySQL database schema for employee records and utilized Maven for efficient dependancy management.

Developer portfolio
A responsive personal website built with React, Tailwind CSS, and Node.js to showcase software projects, technical growth, and professional background.

ACHIEVEMENTS & AWARDS

- ✔ Data Analytics Training Certificate
- ✔ SkillQuest – Generative AI Literacy Certificate
